

What are QuickSticks ?

- Ultra concentrated chemical engineered into a solid block
- The safe and convenient way to replace liquid chemical, but can operate alongside existing liquid products
- Multimetal compatible products including aluminium

What do I need in order to use QuickSticks ?

- You will need an EasyTreat feeder
- These are dual-use: liquid and QuickSticks
- When not in use, they can act as a simple side stream filter

EasyTreat 10:

- Will hold upto 14 QuickSticks, or 15L of liquid chemical

EasyTreat 20:

- Will hold upto 21 QuickSticks, or 25L of liquid chemical

How do they compare to traditional liquid chemicals ?

- HUGE weight and volume saving
- HUGE Reduction in packaging and waste
- SAFER to use
- 97 - 100% active

Package size	1 by 25 L drum	2 by 10 L drums	3 by QuickSticks
Weight [Including drum]	Circa 26 kg	Circa 20.9 kg	Circa 1.25 kg
Treatable volume <small>*based on a system NOT containing aluminium</small>	Circa 26 kg	2000 Litres	2361 Litres
